

Contract: **Full-Time**

UI Designer

About Us

We are a thought-leading software enterprise company for a digitized world. Our core competency is our expert understanding of enterprise systems, data and processes in organizations, and building technology for transformative change. We develop software for privacy and regulatory compliance for content systems, and financial matter management.

Job Description

We are looking for a talented UI Designer to create amazing user experiences. The ideal candidate should have an eye for clean and artful design, possess superior UI skills and be able to translate high-level requirements into interaction flows and artifacts, and transform them into beautiful, intuitive, and functional user interfaces.

Job Responsibilities

- Responsible for developing UI components that adhere to a specific style guide and can be reused across applications within our organization
- Deliver UI components across various sprints
- Prototype creative solutions quickly, and be able to collaborate with other team to implement technical solution
- Contribute and collaborate in creation and consumption of open, standards-based solution
- Developing new user-facing features using React.js/Redux/D3
- Able to research on the new UI technology trends and develop working prototype to experiment and assessment
- Building reusable components and front-end libraries for future use
- Optimizing components for maximum performance across a vast array of web-capable devices and browsers
- Collaborate with inter region teams and cross impact teams for final delivery
- Right approach and open mindset to work in global team structure and cross time zones
- Comply with Company Information Security policies and procedures and report any incident that is related to information security

Qualifications

- Minimum 6-8 years of UI development experience
- Very strong hands-on background in HTML5, CSS 3, JavaScript, NPM, React JS, D3 etc.
- Strong proficiency in JavaScript, including DOM manipulation and the JavaScript object model
- Thorough understanding of React.js and its core principles
- Experience with Redux React.js workflows
- Hands-on experience in creating responsive designs
- Experience with common front-end development tools such as Babel, Webpack, NPM, etc.
- Excellent knowledge of emerging UX and visual design trends
- Experience with a testing framework (Jest/Mocha/Jasmine)
- Familiarity with code versioning tools such as Git etc.
- Strong knowledge in automated build and testing tools for UI components like Jenkins, Jasmine etc. Desired Experience
- Expert knowledge of CSS, CSS extension languages (Less, Sass), and CSS preprocessor tools
- Expert knowledge of HTML5 and its best practices.

Benefits

- Competitive remuneration package
- Health insurance benefits
- Other benefits in line with the Kosovo Labor Law
- Opportunity to work in a fast-paced environment for an international company with offices in the US, UK, Kosovo, and India
- Opportunity to collaborate with various cultures across locations and develop a vast array of skills
